Galaxy Wars Robot Blinker

#9914

<http://www.gssteched.com/9914.html>

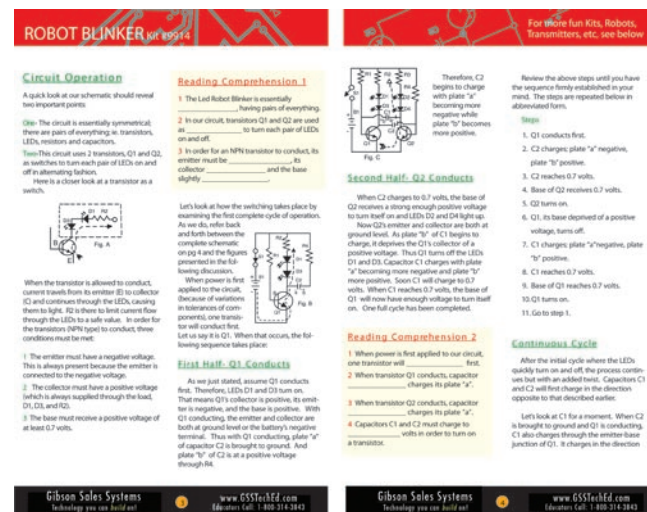

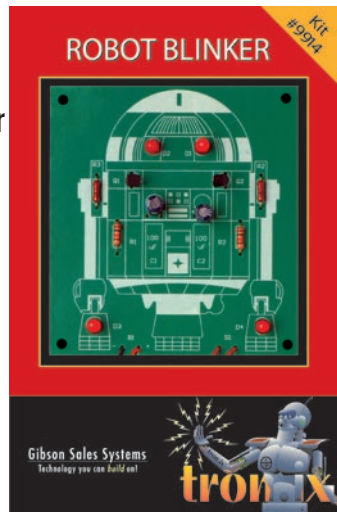

Alternately blinks its 4 LEDs with signals trying to find 'home.'

This little circuit board robot is trying to communicate with outer space. It alternately blinks its 4 LEDs with signals trying to find 'home'. E.T. and this little fellow would make good buddies. Aliens watch out! Robot Blinker will find you. Comes with complete instructions. Surprise your friends with this one!

The Robot Blinker comes with full-color training manual with step-by-step instructions. This is an excellent project to use in teaching basic soldering and assembly. It is used in thousands of classrooms throughout the USA. It is perfect for a hands-on lab project.

If you are teaching basic electronics technology, start with this kit first. Students love it. If you are a teacher, call us for a free sample. Runs on a 9-volt battery.

Robot Blinker Manual
